PENDING BATTLES MAY BRING ACTION IN BALKAN STATES

London, Jan. 25.—The eleventh hour *stiffening* of the Austrian front to check the Russian *invasion* of Hungary as the natural sequence of the occupation of Bukowina, seems for the present to be the event of chief military importance The Russians recognize this and all recent dispatches from Petrograd have emphasized the Austro-German offensive in the southeastern theatre.

Second in importance, perhaps, are the Russian movements near the east and west Prussian frontiers of which the German statement today takes cognizance, although insisting that no new advances into German territory are feared

In the western theatre there has been so little change that the British newspapers print the official communication with scant comment, preferring to feature Sunday's naval action. The facts *concerning this engagement* are not given in detail and the admiralty up to tonight had added nothing to the original announcement.

With great battles soon to be fought out at her front door, Roumania has not yet decided to join the conflict, but it is patent that the situation in the Balkans is simmering and it is believed action will come suddenly

The Swedish press is showing renewed irritation against the British contraband policy and Stockholm papers suggest reprisals by forbidding the transportation of goods destined for Great Britain over Swedish railways One paper says the country should strengthen her defenses to command respect for her neutrality.

BRITISH AIRMEN WRECK GERMAN AUTOMOBILES

Amserdam Holland, Jan 25—The British air raid last week on Essen resulted in the destruction of 400 war automobiles, according to a correspondent of the Handlesblad These cars were in a repair shop which was wrecked by the British bombs

The loss of this large shop the correspondent continues, has been a serious blow and the Germans have been compelled to take over a private automobile factory at Aix-La-Chapelle, where hundreds of Dutch workmen have obtained employment

WILSON TALKS TO SAN FRANCISCO OVER TELEPHONE

Washington, Jan 25—President Wilson today inaugurated the first trans-continental telephone system by speaking directly to President Moore of the Panama-Pacific Exposition in San Francisco. With Mr Moore Alexander Graham Bell, the inventor of the telephone and President Vail of the American Telephone and Telegraph Company on the wire at different points the President extended congratulations on the achievement

"It appeals to the imagination to speak across the continent said the President to Mr Moore

With Dr Bell listening in on the line at New York the President *spoke to Thomas A Watson* in San Francisco Mr Watson was *Dr Bell's electrician* at the time of the invention of the telephone and was the first person to hear a word spoken over a telephone

"I consider it an honor, said the President, "to be able to express my admiration for the inventive knowledge that has made this possible, and my pride that that vital cord should have been stretched across America as a new symbol of our unity and our enterprise Will you not convey my cordial congratulations to Dr Bell And I want to convey to you my personal congratulations sir

With Mr. Vail listening in on the line at Jekyll Island the President then spoke to Dr Bell

May I not congratulate you very warmly on this notable consummation of your long labors *and remarkable achievements* said the President You are justified in feeling a great pride in what has been done This is a memorable day, and I convey to you my warm congratulations

The President said that he could hear Mr Moore in San Francisco distinctly

President Wilson's conversation from Washington with San Francisco were overheard by scores of persons in the telephone company's offices including city officials business men and representatives of engineering and civic organizations

The transcontinental service will not be established for public use until about March 1 It will cost $20.70 for a person in New York to talk for three minutes with San Francisco and $6.75 for each additional minute

ALLIES MAY SEIZE SHIP CARRYING GERMANS FOOD

Steamer Wilhelmina, Flying the American Flag, is on the High Seas With Food for the Germans

London, Jan 25—Unless a positive guarantee is given that the food cargo on the American steamer Wilhelmina which left New York Friday for Germany will not reach the German army it is likely the ship will be stopped by the Allies Because of the alleged general practice of the German military authorities in seizing foodstuffs it is stated the British officials would not regard the consignment of the food shipment to some individual or firm any proof that its ultimate destination would not be the army

Under conditions alleged to exist in Germany it is believed here virtually impossible to guarantee that any food stuffs destined for civilian use will reach the consignees

KENNETH WAITE AT THE EMPRESS

Kenneth Waite the singing newsboy made his initial appearance at the Empress matinee yesterday afternoon for a week's engagement, and seemed to please the audience with his work He appears to advantage in comedy roles but is also a clever versatile artist Waite could improve his work however by the introduction of some new jokes The Dupree Sisters have arrived and will open their week's engagement at the Empress theatre today, thereby insuring two acts for the Empress the remainder of the week.

SHORTAGE OF FUNDS OF DOMINGO IS ADMITTED

Secretary Bryan Confirms Report That $8,000 Have Been Misappropriated

Washington Jan 25 Secretary Bryan today confirmed reports that about $8,000 of the Dominican Republic works funds had been misappropriated This statement was issued by the State Department

When Velasco, the auditor in charge of the public works fund was removed recently a defalcation of some $8,000 was discovered A further defalcation of a thousand dollars is reported under the Mann administration Velasco is a citizen of Santo Domingo and his appointment was made by the Santo Domingo government

It was explained that the United States government exercises no control over and is in no sense responsible for the disbursement of funds derived from customs collections and turned over to the Dominican government

The Fresh Air Sure

Plenty of fresh air is an essential part of a patient's treatment

Pure air is just as important and necessary for good health as are pure food and pure water

Fresh air and sunlight are the cheapest and best agents for the recovering of an ill person

Let fresh air and sunlight enter your sick rooms through open windows as much as possible

Expose the bed clothing to the open air and sunshine for some time each day

Sleep with the bedroom windows open says nurse The old superstition that night air is unhealthy even for an invalid is entirely false On the contrary, night air, especially in large cities, is purer and better than day air because it contains less dust and fewer microbes

STATE CASES TO TRIAL MONDAY

While the work of the Circuit Court will be directed towards the trial of civil cases by jury this week, the criminal docket for the adjourned term, will be taken up Monday morning, and 141 State cases are set for trial This is a very heavy docket for the adjourned term

Outside of several murder cases which are on the calendar for trial during the criminal session, public interest next centers in the whiskey cases There are 54 cases *in which the defendants are* charged with violating the prohibition laws set for trial, and 9 cases in which the defendants are charged with carrying concealed pistols Then various other alleged criminal offenses follow, such as burglary, arson, assault to murder etc

THE WAR SITUATION.

Of actual fighting there is little but new troops dispositions in various quarters seem to indicate that great battles in the European war soon will be raging again

This is particularly true in Bukowina where the Austrians have massed large forces in an endeavor to push back the Russians, and *in the Carpathian passes where* Petrograd reports the troops of the dual monarchy are showing activity

Berlin notes a movement of *Russians in considerable force to* the north of Warsaw and the German military critics are in a quandary as to whether this means a maneuver in a new campaign in this district, *where previously* all Russian attempts to an advance have been repulsed.

Nothing definite has been learned with regard to Germany's claim that the British lost a cruiser in the sea fight Sunday

Russia is said to have reinforced the Serb army with Cossacks and also to have sent considerable quantities of war supplies in to the kingdom.

Germany has seized all stocks of wheat to insure a supply of bread until the next harvest Stocks of wheat will be distributed according to the necessities of the various communities

The British armored merchant steamer Viknor has been sunk with all hands off the Irish coast The vessel either foundered or struck a mine.

A Vienna newspaper declares the Austro-Hungarian foreign minister has stated he will refuse *territorial concessions to* Italy and Roumania, even if such a refusal should be the cause of their *entering* the war on the side of the Allies

Berlin credits to Vienna newspaper dispatches the statement that *reported* Austro-Hungarian *successes in Bukowina* have served to lessen Russia's prestige in Roumania.

It is stated in London that owing to reports that Germany is seizing *all foodstuffs for military* use, the American steamer Wilhelmina, bound from New York for Germany with food, is likely to be stopped by the Allies unless a positive guarantee is given that her cargo will not reach the German army

Amsterdam reports that the fifty year old untrained men of the landsturm in the province of Brandenburg in which Berlin is located have been cited to appear for medical examination.

SPECIAL GRAND JURY IS BUSY

Inquisitorial Body Investigating Crime Conditions in Houston County.—Sessions Held Daily.

Around the grand jury room, where the special grand jury called to investigate crime in Houston county is in daily session, a scene of almost continuous activities is presented. Witnesses may be seen entering the room occupied by the inquisitorial body, who are no doubt prying into conditions in this community. A crowd is generally stationed around the door through which entrance is gained into the grand jury room.

Following the organization of the grand jury yesterday morning, with Solicitor Bramell directing the work of the inquisitors, the court then began work *of clearing the civil docket*, and a case was put on trial.

Will It Prohibit? Keep Chinking.

When the writer was a boy back on the farm, we, with some other green lads, took a notion to build a bateau for a convenient pond. We pooled our funds and bought lumber from a nearby saw mill and on Saturday afternoon we built that bateau. Neither of us had ever helped to build one before and when it was finished it looked good. We could see no cracks big enough to let water through and we loaded it on a wagon and off to the pond we went. When we launched it water came through alright but we knew what to do. We took cotton and chinked the cracks and pitched them. We launched it again, and still there were other leaks but we kept "chinking" with cotton and pine pitch till that old bateau actually floated without a leak.

If this prohibition law leaks as it surely will, the only thing to do is to "chink" and keep at it by electing officers who want to keep it from leaking. It will finally float off on the state wide pond and be a safe craft.

The Question of Movie Censorship

[illegible] as guaranteed in the state constitutions [illegible] statutes [illegible] the movies [illegible] Supreme Court [illegible] answer [illegible] the validity of motion picture censorship laws in Ohio and Kansas. The question resolves itself into this: Are the movies a part of the press?

On the one hand it is argued that they often disseminate news not in type but in pictures. They exert [illegible] to influence public opinion and public sentiment. They carry on campaigns in an effort to get the public to take a better care of its health. They show what a nasty thing the fly is, how tuberculosis may be prevented, how precautions may be taken at the ports against the importation of diseases by fleas that infest rats. And there is no doubt that they have been used to influence politics, to help this candidate and attack that one. Mayor Gaynor vetoed a moving picture censorship ordinance in New York in 1912, taking the position that the word "press" as used in the federal and state constitutions, includes all forms and methods of expression by writing and pictures.

On the other hand is the certainty that as far back as 1791 folks did not dream of a time when not only the likeness of people but even the play of expression on their faces, the bucking of unbroken bronchos, the fall of water at Niagara, the flight of aeroplanes, the march of armies, would be reproduced as in actual life upon canvas thousands of miles away and months afterward.

The question is important. The decision of the Supreme Court, whatever it may be, will have a far-reaching effect upon the future of the movies. If Congress, the states, and even the cities have the right to censor them, a new impetus will be given the movement in favor of strict censorship that already has assumed large proportions. EUROPEAN WAR STIRS UP RACIAL PREJUDICES

(New York Evening Post

Not the least of the dreadful evils entailed by the world war is the awakening of race prejudice in quarters where it has never existed and its reawakening in others where it had been gradually yielding to the slow processes of time and the still slower spread of the teaching of the brotherhood of man In an atmosphere of peace and good will alone can Christian doctrine [illegible] ground Let war break out and we not only cease to love a group of our fellowmen, but we endow them overnight with the blackest of characters. Harmless Spaniards become torturing fiends in the twinkling of an eye Yesterday they seemed endowed with the traits of honesty thrift and industry today they [illegible] monsters in human form we wonder how we could have [illegible] of them enter our harbors and settle among us So to masses of the allied nations the Germans they praised yesterday for [illegible] admirable and very humane [illegible] ities have become as devils incarnate And the Germans [illegible] multitudes are just now asking themselves how it is that they were unaware of the diabolical character of the British of whom they have been happy to [illegible] so many thousands these last four decades

But it is not merely nation prejudices whose recrudescence we are now witnessing It is the more subtle, and infinitely more dangerous, race prejudice with which we have to deal In Germany, for instance, there has up to this time been no such thing as color prejudice [illegible] nese and Japanese men of [illegible] ing and military officers [illegible] married into German families as a matter of course An American negro could travel anywhere in Europe and have the [illegible] experience of being treated [illegible] his merits as a human being This has all been changed as by a magician's wand The drawing into the war of Japanese and Indian troops by Great Britain and of black troops from Africa by the French has given rise to the bitterest outbursts in the German press For the first time [illegible] hateful [illegible] and its [illegible] Cartoons [illegible] appear particularly [illegible] Thus the chief organ [illegible] of an oppressed [illegible] unless the pictured [illegible] [illegible] The intensity of the German [illegible] against the English [illegible] [illegible] and chief means of fanning the flames is the statement that England has brought [illegible] civilization [illegible] to break down the high culture of a pure race of the same stock as her own

The WHEEL of GOVERNMENT

Buffalo [illegible]

Every man who has held a public office knows from experience how strong is the disposition of men to offer suggestions as to the course of conduct official shall pursue Probably the American habit of suggestion tends more to the good of the public [illegible] than otherwise [illegible] too often accompanied [illegible] sumption that the official [illegible] in his power to do [illegible] posed for him to do [illegible] many lose sight of the [illegible] acter of our government [illegible] is co-operative and [illegible] every action dependent in greater or less degree [illegible] of somebody else

Here is Governor Whitman for example who is beset with proposals that he shall adopt this or that policy that he shall confine to one adviser and [illegible] other, that he shall follow [illegible] or the other line of administration. Yet Governor Whitman like all Governors before him requires the help of a Senate and Assembly and they in turn need the executive sanction to accomplish any results. So it is with the President of the United States [illegible] into effect [illegible] [illegible] we [illegible] [illegible] the [illegible] we could not find a single exception [illegible] principle [illegible] [illegible] of American institutions [illegible] rather than the spokes of the wheel Yet the hub is [illegible] without the spokes [illegible] over the road [illegible] must have its whole equipment [illegible] axle spokes rim [illegible]

There can be no fair and [illegible] discussion of governmental matters, without keeping [illegible] co-ordination principle continually in mind By so doing we shall keep from asking impossibilities, and by clarifying our ideas of what is possible, we shall better be able to insist on

[illegible] an be the whole government

Forget Thee!

(By John Moultrie.)

"Forget thee!" If to dream by night, and muse on thee by day,
If all the worship, deep and wild a poet's heart can pay,
If prayers in absence breathed for thee to Heaven's protecting power,
If winged thoughts that flit to thee—a thousand in an hour,
If this thou call'st "forgetting," thou indeed shalt be forgot!

"Forget thee!" Bid the forest birds forget their sweetest tune;
"Forget thee!" Bid the sea forget to swell beneath the moon;
Bid the thirsty flowers forget to drink the eve's refreshing dew,
Thyself forget thine "own dear land," and its "mountains wild and blue;"
Forget each old familiar face, each long remembered spot
When these things are forgot by thee, then thou shalt be forgot!

Keep, if thou wilt, thy maiden peace, still calm and fancy free,
For God-forbid thy gladsome heart should grow less glad for me,
Yet while that heart is still unwon, O bid not mine to rove
But let it nurse its humble faith and uncomplaining love;
If these, preserved for patient years, at last avail me not,
Forget me then—but ne'er believe that canst be forgot!

HOW WOMEN AVOID OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"My left side pained me so for several years that I expected to have to undergo an operation, but the first bottle I took of Lydia E. Pinkham's Vegetable Compound relieved me of the pains in my side and I continued its use until I became regular and free from pains. I had asked several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. P. GRIFFITH, [illegible] Constant Ave., Cleveland, Ohio.

Hanover, Pa.—"I suffered from female trouble and the pains were so bad at times that I could not sit down. The doctor advised a severe operation but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it. What joy and happiness it is to be well once more. I am always ready and willing to speak a good word for the Compound."—Mrs. ADA WILT, 303 Walnut St., Hanover, Pa.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts if Your Back Hurts or Bladder Troubles You.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys; also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

SCHOOL TEACHING EXHAUSTING WORK

Miss Rosa M. Keller's Struggle to Keep Up—How Vinol Helped to Ward Off Nervous Breakdown.

Alburtis, Pa.—"I am a teacher in the public schools and I got into a very nervous, run-down condition. I could not sleep and had no appetite. I was tired all the time.

"My sister told me how Vinol had built up her nephew and asked me to try it. I did so, and within a week after taking Vinol my appetite improved and I could sleep all right and now I feel well and strong.

"Vinol is certainly a fine medicine and even the doctors say it is a good tonic."—ROSA M. KELLER, Alburtis, Pa.

The reason Vinol restored Miss Keller to her normal health was because in a natural manner it sharpened her appetite, aided digestion, strengthened her nerves, and as a result brought the refreshing sleep she needed.

If there is anyone in this vicinity, run-down, weak, nervous, worn out and who cannot sleep, we ask you to try Vinol, our delicious cod liver and iron tonic, on our guarantee to build you up and make you feel better, eat better, sleep better, or return your money.

ECONOMIZE ON YOUR MEDICINE

N. H. McCALLUM'S DRUG STORE WILL SELL 100 BOTTLES OF MEDICINE AT HALF PRICE. MAKE YOUR OWN COUGH MEDICINE.

One hundred residents of Dothan will have a chance to get a 50c bottle, but only one to each family, of Schiffmann's Concentrated Expectorant at half price at N. H. McCallum's Drug Store today and tomorrow only, but to number on these days only. With a view to inducing those who have not yet used this excellent remedy an opportunity of trying it, R. J. Schiffmann, 205 W. 6th St., St. Paul, Minn., and N. H. McCallum's Drug Store have decided to reduce the price so as to give the first 100 applying a regular 50c bottle for 25c, by presenting the coupon below. Even though not in need of a medicine at the present time it will pay to take advantage of this opportunity, as some remedy is quite sure to be required before the winter is over but this remedy cannot be obtained at half price again.

This latest method of supplying a remedy in such strongly concentrated form, where you buy all pure medicine in small bottles, is more economical. Instead of buying, to break up a cold or cough, several bottles of old fashioned ready made remedies containing only a small quantity of real medicine and a large proportion of sugar and water, also paying for bottles, corks, labels, etc., it is better to get a 50c bottle of Schiffmann's Concentrated Expectorant and mix it at home with your own sugar syrup (according to directions) and make a full pint of the best cough medicine, besides saving $2.00 to $3.00 which this quantity would cost for the same amount of the ordinary kinds. One bottle will also probably be a sufficient quantity to last a family the entire winter. Absolutely no chloroform, opium, morphine or any other narcotic is contained in this remedy. It is pleasant to take and children are fond of it. Besides absolutely no risk whatever is run in buying this remedy, as N. H. McCallum's Drug Store will refund your 25c if it is not found the very best remedy ever used for Stubborn Coughs, Colds, Bronchitis, Croup, Whooping Cough or Hoarseness. Persons calling after these 100 bottles are sold or living out of the city where they are unable to get it of their local druggist, will not be disappointed, but will be sent a bottle, postpaid, upon receipt of the coupon and 25c, providing they order of the proprietor today.

Address R. J. Schiffmann, 205 W. 6th St., St. Paul, Minn.
